American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State Street, Opposite Kilby Street, Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in his favor by the Commissioner of Patents.

R. H. EDDY.

Testimonials.

"I regard Mr. Eddy as one of the most capable and successful practitioners, with whom I have had official intercourse.

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. THE RICHEST MAN IN THE WORLD.

EXTRACT OF A LETTER FROM BARON SOLOMON ROTHSCHILD.

PARIS, 8th April, 1866, 25 Rue [illegible], St. Honore.

Will you be kind enough to have forwarded to me here two bottles of your Indian Liniment; if you will send at the same time the account, I will forward you the amount through Messrs. BELMONT & Co. New York.

BARON SOLOMON ROTHSCHILD having recommended to many of his friends Major LANE'S LINIMENT, and they being desirous to procure it, we have advised him to establish a Depot in Paris.

THE INDIAN LINIMENT,

As a relief, externally; as a killer of pain, taken internally, or outwardly applied, has no equal. For the relief and cure of *Rheumatic and Neuralgic Affections, Sprains, Bruises, etc.,* it is unequalled. It is also most efficacious, taken internally, in the cure of *Cholera, Cramps and Pains in the Stomach, Heartburn, Dysentery, Cholera Morbus, Chills or Diarrhoea, &c.,* and is without exception the most wonderful Panacea the world affords. No FAMILY should be without it. Every TRAVELLER by land or sea should have a bottle. MINERS and FARMERS residing at a distance from Physicians should keep it constantly on hand. In case of Accidents, and sudden attacks of Stomach Complaints, its value cannot be estimated. Inquire for *Major LANE'S INDIAN LINIMENT, and take no other.* PRICE, 50 Cts. per bottle. W. & P. BRYER,

No. 15 Broad Street,

MAKE the following proposition: They will put up at the market price one hundred pound packets of English Breakfast, Oolong and Hyson Teas, such as they are now retailing for one dollar per pound, and deliver the same on the 25th of September at the residences of purchasers. In every tenth pound will be enclosed a one dollar greenback, so that the purchaser will get his tea for nothing. By this arrangement no one will pay above the regular price, so that there is no possible loss. As will be seen, the tea is sold on the average at a deduction of ten per cent., or at our

WHOLESALE PRICE,

which is simply what is proposed to be done.

We are only enabled to do this by our connection with an extensive wholesale tea-store in New York, from which we purchase at the lowest rates.

EVERY POUND WARRANTED.

If the tea when tried is not satisfactory it may be returned in exchange for any other kind or quality in the store. The whole thing is to be done on perfectly honorable principles, and is no catch-penny affair.

Orders may be handed in at once.

If the whole number of packages are not sold at the day of delivery the proportionate number will be disposed of according to the above terms.

These are not a cheap tea provided for the purpose, but a **regular standard article.** Other grades may hereafter be sold in the same way. Now is the time to send in your orders.

PREDESTINATION.—A Missouri paper contains the following, which will pass without much urging:

"Do you believe in predestination?" said a captain of a Mississippi steamer to a Calvinistic clergyman who happened to be travelling with him.

"Of course I do."

"And you also believe that what is to be will be?"

"Certainly."

"Well, I'm glad to hear it."

"Why?"

"Because I intend to pass that boat ahead in fifteen minutes, if there be any virtue in pine knots and loaded safety valves. So don't be alarmed, for if the bilers ain't to burst, they won't."

Here the divine commenced putting on his hat, and began to look like backing out, seeing which the captain smilingly observed:

"I thought you believed in predestination, and what is to be will be?"

"So I do, but I prefer being a little nearer the stern when it takes place."

NEWPORT DAILY NEWS.

SATURDAY, November 23, 1867.

THE FENIAN EXECUTIONS.

This is the day on which Allen, Larkin, Gould and Shaw, convicted at Manchester, were to be executed. If the sentence is carried into effect, it will be one of the many blunders and exhibitions of cruelty which blot from time to time the history of Great Britain. Aside from the plea of a part of them that they are American citizens is the impolicy of their execution in expiation of a merely political crime.

It is alleged that these men are guilty of murder and are punished for that rather than for complicity in the direct movements of the Fenian party. This is, of course a mere plan for covering the real animus of the Government which has for its purpose the crushing of Fenianism. The offense with which these men were charged was being engaged in the forcible rescue of Col. Kelley, a Fenian leader, from the police at Manchester. During the conflict between the policemen and Fenians, one of the officers, Sergeant Brett, was shot, and for having been connected with the mob from whence proceeded the fatal bullet, these four men have been sentenced to death, although they each and all protested that they were entirely innocent of the shooting of the officer, and the judge himself was compelled to state that he believed no one of them entertained any malice toward the officer who lost his life.

It is hoped that this execution will produce a salutary effect by inspiring the Fenians generally with terror, and will afford proof of the power and activity of the laws against armed resistance or insurrection against the Government. It is not believed that these men have been proved actually guilty of murder; but they were connected with a sort of riot which had more or less connection with the Fenian movement, inasmuch as it resulted in rescuing from the officers of the law a man who was regarded as a public enemy. The Government does not pass these offenses without punishment, and it seeks, by the severity of the punishment inflicted, to deter all other sympathizers with these men from endeavoring to imitate their course. But it will soon be seen whether the severity of the punishment decreed in these cases will have the desired effect, and enable policemen hereafter to capture and [illegible] Fenian leaders without molestation.

The Trial of Jeff. Davis.

A Richmond dispatch states that Jefferson Davis is expected to reach there on Saturday in company with Chas O'Connor, one of his counsel. He will occupy his old quarters at the Spottswood. His counsel will object to his being tried by Judge Underwood and a negro jury. One reason why they object to Underwood is that the Rev. Paul Bagley, who visited Mr. Davis in Montreal last summer saw Judge Underwood on his return to Virginia, and he (Underwood) said to him, "Well, I hope you will have nothing more to do with him (Davis). I will have him convicted, confiscate his lands, sell them to the negroes at fifty cents an acre, and you can go down there and get a good place to preach to them." Another cause of challenge stated by his counsel is the fact that when Judge Underwood was before the Judiciary Committee he was asked whether Jeff. Davis could be convicted in Richmond, and he is said to have replied that he could pack a jury which would convict him, but he could not be convicted otherwise. This was before the inauguration of negro juries. His counsel will object to a negro jury, first because having such a jury will be illegal, and second because it is not possible that any negro jury can be, in point of fairness or capacity, competent to try him. If the court over-rules the objections of the counsel, and determine to try him by a negro jury, his counsel will withdraw and leave the prisoner *lupo devorandum*.

The Salaried men of London have formed an association for the benefit of persons with fixed incomes,—such as clergymen, clerks, government officers and others. An arrangement was made with some of the best tradesmen there, that they should sell goods at twenty per cent. below the usual prices to any member of the association. The tradesmen willingly agreed, as the association would bring them a large trade and one that paid in cash, thus assuring small but quick profit. The plan works well. A few shillings pays for a ticket, and the income from the tickets pays the services of a business man who sees that all parties are fairly dealt by. No capital is required, no assessments and no officials—only the agents, the tickets, the customers and the tradesmen. Why may not such a simple plan be tried in this city? If successful, it would relieve many who are trying "to make both ends meet," on very small incomes.

GENERAL HOWARD.—The President has not yet issued an order mustering General Howard out of his volunteer rank, and he will not do so at all if the advice of General Grant is followed. General Grant says that General Howard's duties are more important and [illegible] than those of a department commander. The Freedmen's Bureau [illegible] few or none of the extras or perquisites of department commanders, but confines him to the pay and rations of his rank. General Grant thinks, therefore, that he should be allowed to retain his major generalship, and has so represented to the President. In case he is mustered out, General Grant is of opinion that Congress should make his pay, while at the head of the Bureau, equal to his present pay, which is about the same as that of a brigadier-general acting as department commander.

BIG SNOW DRIFTS IN NOVEMBER.—The roads between New Marlboro' and Sandisfield, in the western part of Massachusetts, were blocked up last week by snow drifts, from Tuesday night until Friday, when the authorities had them shoveled out. The drifts in places were upwards of nine feet deep.

A Beautiful Episode.

While the Presbyterian Convention was in session in New York, there was also in session in the same city a Convention of the Episcopal church. The former body having sent to the latter its Christian salutation, a deputation headed by Bishops McIlvaine and Lee, and accompanied by more than one hundred Episcopal clergymen, came the next day to bear a response in person. It was a remarkable occasion. "I greet you," said Bishop McIlvaine, "in the name of the House of Bishops, and I greet you in the name of the Lord Jesus Christ. The foundation which the church builds upon is a sure one, and we stand here to testify to our common standing on that foundation." When subsequently the bishop and Dr. Hodge, more than half a century ago classmates together at Princeton, stood embracing and in tears, as the latter beautifully and eloquently responded to the deputation, almost every eye yielded to the melting tenderness and sacredness of the scene, and every heart felt it to be a symbol and a prophecy of a union yet to be consummated broader and grander than that they had met to inaugurate. "Sir," said the doctor, "were not your church and ours rocked in the same cradle? Have they not passed through the same Red Sea of trial? Did we not receive the same baptism of the Spirit? Do they not bear the same testimony to Christ and the apostles? What difference is there between the thirty-nine articles and our confession, greater than the difference between the different parts of one great cathedral anthem that arises to the skies? Does it not seem to you that these great churches are coming together? We stand here to declare to the whole world that we are one in faith, one in baptism, one in hope, and one in allegiance to your Lord and our Lord."

Military Instruction.

The Secretary of War, last April, designated Major J. H. Whittlesey, a retired officer of the army, to visit West Point and various other colleges, with a view to seeing if it would be practicable to introduce a system of military instruction into our principal colleges. Major Whittlesey has concluded his labors and made his report.— It is a long document, and embodies the draft of a bill to carry out his conclusions. He says that he visited West Point and several leading colleges, and then drew up a plan and submitted it, by a printed circular, to all the colleges of the country, and the bill in question is made up after carefully considering all the criticisms and suggestions received.

This bill and the report will soon be laid before Congress by General Grant. Major Whittlesey proposes to authorize the President to locate, at certain colleges selected by the several State legislatures, two military teachers from the Army College.— Graduates who distinguish themselves in military matters are to have their names put into the army register, and one from each college is to be commissioned each year, as West Point graduates are. Provision is made for encouraging the disposition among army officers to fit themselves for military professions. All military students are to have their books and camp equipage free. A Director General of military education is to be appointed, with the rank and pay of a brigadier-general. He will have his office at the National Capitol, and will exercise the supervision, under the Secretary of War, of the whole subject, and make annual reports to Congress. The bill is a long one, and these are only its chief points.

CO-OPERATIVE KITCHENS are suggested as a remedy for the chronic evils of housekeeping. If a number of families living near to each other would club together and furnish a joint kitchen, and put it in the charge of an efficient cook and steward, then each family would be relieved from the worry of servants, the trouble of marketing and the expense of separate establishments. The food would be of an improved quality, better cooked and furnished at a less cost than under the old system, and, what is more, there would be more leisure and less occasion for fretting; a change which would reconcile the ladies of the family to the system. In Paris you can send out for your meals, and they are brought to you in a heated apparatus; but then you must pay the keeper of the restaurant his profit. The co-operative kitchen would furnish everything at cost, and the amount could be paid by assessment on each family, according to the number of mouths to be fed.

GEN. BUTLER has requested the Secretary of the Treasury to order that fishing vessels may be considered during the winter as bonded warehouses for their surplus salt, thus saving the expense of carrying it ashore and depositing it in bonded warehouses. If the Secretary does not issue the order the General will ask Congress to pass a law establishing it.

The Baldwin Place Home for Little Wanderers, Boston, in the past two years and seven months, have accommodated 1657 children in the Home; 909 have been given up to be furnished with homes; 590 have been orphans of soldiers. In the past six months 170 have been received at the Home, and homes have been provided for 119. The present number of inmates is 112, including 48 children of deceased soldiers.

The President assures members of Congress that he is disposed to conciliation, and would be willing to agree to the gradual enfranchisement of the negro; but nobody seems to care what he says, or place any dependence on his utterances. He is getting nearly through with his message, which will be rather violent in tone. He is nervous over the impeachment report, not because he fears impeachment, but because he knows that some of the evidence looks badly against him.

DEATH CAUSED BY ANGER. A workman by the name of White died suddenly in Norwalk, Ct., recently of a paralytic shock, caused by a sudden fit of anger. A workman threw a small soft shell clam across the workroom, which, striking the bell, threw the liquor upon Mr. White's glasses. This excited Mr. White's resentment.

About Home.

OUR LOCAL DEPARTMENT.—The readers of the *News* will doubtless observe that we are giving a much larger space than formerly to the local department of the paper. Under the present arrangement especial attention will be devoted to matters about home and we hope to make the *News* a necessity to all who are interested in Newport affairs. To this end we invite a co-operation of those who wish a local paper that shall be equal to any published in the neighboring cities of the size of our own. We now furnish as much reading matter daily, if not more, than most papers of this class. Of course we cannot manufacture local news where there is none, but our present arrangements are ample to enable us to give our readers a full and reliable record of current events.

SERGEANT MORRISON.—The dismantled fort and government property on Goat Island is in charge of this veteran soldier who is now eighty-three years of age. He is a native of Scotland, and was reared in the same village with Robert Burns, was his playmate and school-fellow, and it is said Burns' Highland Mary was Morrison's sister. Mr. Morrison was fifteen years old when he entered the British army as a private, in which he served until he was thirty-two. At thirty-three he enlisted in the American army, and has continued in the service to the present time, receiving an honorable discharge and re-enlisting at the expiration of each term, his latest re-enlistment having occurred the past summer. He has been an orderly sergeant thirty-two years, a term of service as a non-commissioned officer which is exceedingly rare in the annals of any army. The standing of Mr. Morrison in this rank may be inferred, as well as the estimation in which he is held in the army, when it is stated that the post of an orderly sergeant cannot be obtained except at the end of eight years' service without any occasion for reproof for disorderly or unsoldierly deportment. He has had charge of the fort on Goat Island fourteen years, not as a retired, or half-pay officer, but on full pay as an active and efficient officer, as he is, even at his advanced age. Previous to his appointment here, he was for eighteen years in command of all the fortifications in New York harbor. Having been an active soldier in our army for fifty years, he probably ranks by seniority all other officers on the active list. His whole life as a soldier covers a term of sixty-seven years.

In a review of Dr. Snow's report upon [illegible] of Rhode Island, the Philadelphia *Medical and Surgical Reporter* says:

"The relative decrease of the American population, which has been the text of several mysteriously named and sensational little books of late by sundry New England doctors and divines, not very *au fait* in handling statistics, is discussed by Dr. Snow in a masterly manner, showing conclusively that the decrease in question is owing to quite other causes than the moral or physical degeneracy of American women. The other portions of the report, especially that on education and ignorance, discloses many facts worth reading by those who have no especial interest in Rhode Island."

The above we take from the Providence *Journal*. From this paragraph we learn that Dr. Snow has published a "Report on the Census of Rhode Island." In the distribution of public documents in this State it seems to be forgotten that there are any newspapers out of Providence. We wonder why Dr. Snow's Report has never been seen in Newport.

TEACHERS.—By reference to our advertising columns it may be seen that an opportunity is given those desirous of positions as teachers in the public schools, to compete for them by examination. That this is the proper method of supplying such places with persons competent to perform their duties can hardly be questioned. Yet, many persons have proved successful teachers who would make an indifferent appearance at such a trial, and others who would win success in this way would be poor managers of schools. But, in the lack of experience in the work itself, there is no other way equal to this for approximately ascertaining the qualifications of candidates.

FUTURE IMPROVEMENTS.—We hear of several parties who propose building fine establishments in Newport as summer residences. Among them is DeLancey Kane who has recently sold his estate near the Beach, and who has a splendid villa site in the vicinity. Mr. Kane is now in Europe and if he carries out the plan attributed to him it will be a fine addition to the scenery of the Cliffs.

DANGER OF YAWNING.—It is said that a lady in this city while yawning one day last week, opened her mouth so widely that it required two physicians to help her shut it. The jaw became unlocked, and it was not an easy matter to get it right again. People who are given to this exercise should beware of the consequences before it is too late.

Rev. J. G. Smith, General Travelling missionary agent of the New England conference of the African M. E. Church will preach at the Spruce street church on Sunday, at both services. He will solicit subscriptions for the cause while remaining in the city.

THE PROSPECT.—Our friend Geo. Bowen, whose word is to be taken without question, authorizes us to announce to the readers of the *News* the approach of a mild winter.— He says when the rivers freeze and open again before Christmas this is always the case.

SOMERBY & BRUCE, give their first entertainment at Aquidneck Hall, Monday evening.

The Hall will be open from 2 to 5 p. m. for the exhibition of the presents to be made at the close of the performance.

BAPTISM.—Rev. S. P. Hancock will administer the ordinance of Baptism to-morrow at 9 o'clock a. m. at the usual place on the point.

SOMEWHAT PERSONAL.—In the debate in Congress, Thursday, on the admission of the Tennessee members, Mr. Chandler, of New York, who may now be regarded as a resident of this city, commented on the fact that Mr. Dawes was willing, in order to save Mr. Stokes, to throw Mr. Butler into the arena to let him fight the wild beasts, an incident which reminded him of the Apostles at Ephesus; that gentleman (Dawes) should not read to the House any lessons from Scripture, as he and his party had defined the principles of truth, got the ministers of the gospel to join in carrying out fanatical views and had trodden on every right, human and divine. The House should establish the principle either that the people can elect their own representatives or that no member should be admitted to a seat here who does not belong to the political faith of the majority.

Mr. Dawes remarked that he would not waste any lessons of Scripture upon the gentleman (Chandler), as he did not desire to hurt his feelings.

NEW SHOREHAM.—The crops on Block Island have not been as good this past season as usual. The people are now mostly engaged in fishing, and from this employment are reaping a finny harvest. It is not often that they secure so good returns for this kind of labor.

NEW RESERVOIR.—The chief engineer is building a reservoir for the use of the Fire Department, on Mary Street, near the engine house.

THE REPAIRS on the Thames Street Church not being yet completed the house will be closed another Sabbath. Service will be held in the vestry.

APPOINTMENT.—Richard Canfield of this city has been appointed Lieutenant in the Navy.

THE RAILROAD ACCIDENT AT LOCKLAND, OHIO.

Further particulars of the accident on the Cincinnati, Hamilton and Dayton Broad Gauge Railroad, represent the scene presented as horrible in the extreme. The crash was terrible.

The cars of the passenger train were violently jammed into each other. The sleeping car of the ladies was crushed into small pieces of timber. One lady had her head cut off from her body in less than a second.

The names of the killed are Harriet, Rebecca, Sarah and Elizabeth Morgan, all sisters, who were returning to their home in New Orleans. The name of the gentleman, who was killed, is Mr. Charles Jackson of Boston, and he lost his life in heroically endeavoring to save the lives of the ladies.

LARGE CLUSTER OF GRAPES.—Mr. Fowler, gardener to the Earl of Stair, Castle Kennedy, produced at a recent show in Glasgow, the most extraordinary bunch of grapes, for size and weight, that has been exhibited in modern times. It all but rivalled the famous bunch of Speechy at Welbeck. It weighed 17 lbs. 2 1-2 ozs., and was of the White Nice variety. The same grower had enormous Black Alicante, with berries the size of Victoria Hamburg, and bunches compact and pyramidal to a fault. Trebbiano, too, was the largest and best formed bunch of the kind probably ever exhibited. Mr. Fowler also produced a bunch of the Duchess of Buccleuch variety, much larger both in cluster and berry, than any of this variety before exhibited. The size of bunch which Mr. Fowler induces in all the sorts under his cultural care, is something wonderful, and if he does not at all times show them quite up to the finishing stroke in point of color, it need not be wondered at.

Florist, London.

TO CURE SHEEP FROM JUMPING.—A correspondent of the Ohio Farmer gives the following curious account of the method adopted by him to prevent his sheep from jumping the fences of his pasture:—"I want to tell you about my jumping sheep, and how I broke them. I got them in a pen sufficiently large to hold them. I then caught the ring-leaders, one at a time, and made a small hole in each ear. I then took a cord or string, and run through the holes in the ears together close enough to keep them from working their ears; I then let them out, and they are as quiet as any sheep."

Raspberries, Blackberries, Dwarf Pears and other plants or trees with small surface-roots, should have the earth turned up toward them in the autumn. A light one-horse plow, taking first a shallow furrow and turning it toward the trees, then making the next furrow deeper, and so on deepening as we extend the distance from the tree, we have found a good practice.— Where the raspberries have to be covered for winter, it is requisite to first bend them down and confine them by a spadeful of earth. It is rapidly done, and pays peculiarly in the crop next season.

KEEP THE CALVES THRIFTY.—A calf well kept winter and summer, in thrifty growth, at two years old will make as much, and more, beef, than one negligently kept at twice that age. The profit will be found on the side of the two year old, and the loss on the side of the four year old; yet the owner of the latter has pursued his system, if system it may be called, with the idea that he was saving money. Keep the thrifty animal two years longer in the same way, and something very handsome in the way of beef will be the result, while the starveling can never pay the expenses of his rearing and feeding.—*Farmer's Home Journal.*

THE WASHINGTON LIBRARY COMPANY are steadily and rapidly progressing in their good work, and through their admirable and philanthropic plan they will soon have sufficient funds on hand to found a home for the orphans of the soldiers and sailors who fell during the late war. Every person should buy a share, and those who have done so should duplicate the same, so as to multiply their chances for the grand present of $40,000 and so become wealthy in a moment, and feel, during the remainder of this life, that it was through a benevolent object that wealth has become a fixed fact. Other presents of a smaller value will be given to each shareholder at the grand distribution. As every share holder purchases his share of stock, he is presented with a magnificent steel-plate engraving, worth more at retail than the price of a share. An engraving and a present is guaranteed for every dollar invested. Read advertisement.

Reconstruction is a mooted question; on it, doctors and lawyers disagree, and none are satisfied; but, without a dissenting voice, the people all affirm that American Life Drops have no equal, as a Pain Killer, to cure the ills of both heat and cold.

Has your Father secured a Certificate of the Washington Library Company of Philadelphia, in aid of the Riverside Institute for educating orphans? Each Certificate costs a dollar, with a beautiful engraving, worth more than a dollar at retail, and secures besides, a present at the Great Distribution by the Company, and an equal chance that the present may be one worth thousands of dollars. A wonderful plan of benevolence, you will say, but it is true, and it is attested by good men. Read advertisement.

THERE ARE TWO SPECIAL QUALITIES WHICH DETERMINE and fix the superiority of Mrs. S. A. ALLEN'S NEW STYLE IMPROVED HAIR RESTORER or DRESSING, in one bottle, over all other preparations for the HAIR. First, the prompt, quick action, great growth, life, and vigor that it is sure to give to the Hair, never failing, by a few applications, to restore Gray or White Hair to its natural color, imparting to the Hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second, its easy application without any previous preparation of the Hair; without that sticky and disagreeable sulphur odor found and complained of in all other preparations. It never soils the skin or linen. Ladies will find it a standard Toilet luxury to dress their Hair.— It retains the Hair in any desired position, and is cooling, healing, and cleansing to the Scalp, removing immediately all scurf, dandruff, and pimples.— Price One Dollar. Sold by all Druggists.

SCHENCK'S MANDRAKE PILL.
A certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

TO give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief
DESCRIPTION OF THE HUMAN LIVER
and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.
The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and it is that is sent back through the large brain, and other parts in a morbid condition; it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This unhealthy state of the system very often ends in pulmonary consumption.
The circulation of the blood is conducted in this manner: The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration, while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, giving a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's
Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,
will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.
A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz., Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, all of which are accompanied by full directions for the use of them.
DR. SCHENCK will be professionally at his rooms every week, 32 Bond Street, New York, and 35 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free; but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

Alpine Bitters.
THE **ALPINE BITTERS,** imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their recuperative qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.
The **ALPINE BITTERS** have a soothing and restoring influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and even children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.
The continually increasing demand for this universal popular EUROPEAN Tonic and Anti-Dyspeptic Elixir, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.
Can be obtained by all Druggists and other dealers.

Paris Exposition.
GOLD MEDAL.
An Admitted Fact.
It is admitted by all that ELIAS HOWE, Jr., President of **The Howe Machine Co.,** was awarded a GOLD MEDAL at the Paris Exposition.
Also, it is admitted that the *Grand Cross of the Legion of Honor* was conferred upon ELIAS HOWE, Jr., by the Emperor Napoleon. These were the HIGHEST HONORS ever awarded to a *Sewing Machine Manufacturer.*
THE ONLY QUESTION IS,
For what did ELIAS HOWE, Jr., *receive these honors?* He entered the Exposition as a MANUFACTURER of Sewing Machines, not as "Inventor."
He did not apply for or receive his Gold Medal as "Inventor."
The AWARD speaks of MR. HOWE as "Producer" and "MANUFACTURER" of Sewing Machines.
MR. HOWE (who is supposed to know) says the GOLD MEDAL was awarded to him *for his Sewing Machines exhibited,* AND FOR NOTHING ELSE.
Now in all fairness we ask, *Whose Sewing Machines* took the FIRST PRIZE at the Exposition?
Let COMMON SENSE ANSWER, and we are content.

Dr. WISTAR'S BALSAM OF WILD CHERRY.
In the whole history of medical discoveries no remedy has performed so many or such remarkable cures of the numerous affections of the Throat, Lungs and Chest, as this long-tried and justly celebrated Balsam. So generally acknowledged is the superior excellence of this remedy that but few of the many who have tested its virtues by experience fail to keep it at hand as a speedy and certain cure for sudden attacks of Cold—fully believing that its remedial powers are comprehensive enough to embrace every form of disease, from the slightest cold to the most dangerous symptom of pulmonary complaint.

UNSOLICITED TESTIMONY,
From Rev. FRANCIS LOBDELL, Pastor of the South Congregational Church, Bridgeport, Connecticut.
"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of DR. WISTAR'S BALSAM OF WILD CHERRY. I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat,—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.
I commend it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed."
Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

CHEAP CASH STORE.

C. G. HANDY & SON

WILL be ready and happy to exhibit on sale, to their friends and the public, their carefully selected NEW STOCK of DRY GOODS, on

MONDAY MORNING, 28th inst.

These Goods were selected and purchased the present week, by the senior partner, assisted by an experienced Mantua Maker, from the extensive assortment of Messrs. Alexander J. Stewart & Co., Broadway, Chambers, and Reade streets,—and from Manufacturers, Manufacturers' Agents, Importers and Jobbers, and at Auction Sales in New York.

And in calling your attention to an examination of this Stock we would say, that Dry Goods have been purchased the present week at wholesale, at from 10 to 33 per cent. less than at any previous time for the past six years; consequently, you have reason to expect GREAT BARGAINS, and will not be disappointed, as our motto is "large sales (for Cash at the counter) and small profits."

We are confident, if you will call and look at the Goods before purchasing elsewhere, which we shall be too happy to show, whether you purchase or not, you will be tempted either to purchase or advertise us, as we claim to be the

NEW YORK & BOSTON CHEAP CASH STORE.

Weekly additions will be made to our stock of such goods as are desirable. Personal attention given to the purchases and sales of them, and we confidently expect to change our whole stock every fortnight, the benefit being to the purchaser and proprietors mutual.

TELEGRAMS.

THE FENIANS AT MANCHESTER.

LONDON, Nov. 22.—In the House of Commons last night, an effort was made to save the lives of the Manchester rioters. John Francis Maguire, member for the city of Cork, moved that the House interfere for a stay of the execution of the sentences of the Fenian convicts at Manchester, and that meanwhile the points of law upon which he based his resolution be referred to the twelve highest judicial authorities of the realm. Messrs. Hardy, Gladstone, and Kinglake made strong speeches against the motion, and it was finally withdrawn by its author.

MANCHESTER, Nov. 22.—Shore, one of the condemned Fenians, has been granted a respite.

A public meeting was held here yesterday, by persons opposed to the execution of the Fenians, and resolutions to that effect were passed.

LONDON, Nov. 22.—An orderly demonstration against the execution of the Fenians took place here last night. A large number of persons assembled in one of the public halls, and passed resolutions urging the government to grant a stay of proceedings. A committee was appointed to draw up and present a petition for mercy to the Queen.

BIRMINGHAM, Nov. 22.—A large public meeting was held here yesterday, to protest against hanging the Manchester Fenians.—Some disorder occurred, and riotous demonstrations were made at the conclusion of the meeting.

MANCHESTER, Nov. 22—The city has the appearance of being in a state of siege. Most extraordinary precautions are taken by the government. Barricades have been erected in the streets, for the protection of the troops. Regular infantry are stationed at different points in the city, and troops of cavalry, which have lately arrived here, are patrolling the streets. Two or three thousand special policemen, who have been sworn in by municipal authorities, are distributed among police stations, where they are receiving their arms.

Clergymen have been summoned to the gaol and have been closeted with the condemned prisoners during the greater part of the day. Everything indicates beyond a doubt that the government is determined not to pardon or commute the sentences of the unfortunate men, and intends to make of their execution an imposing demonstration of firmness and vigor in order to put a stop to Fenian violence and outrage.

LONDON, Nov. 22, evening.—To-day the committee appointed by the meeting last evening, presented to the Queen, at Windsor, the petition for a postponement of the execution at Manchester. Her Majesty, in the most direct manner, declined to grant the prayer of the petitioners.

BIRMINGHAM, Nov. 23, evening.—The tumultuous proceedings at the meeting in favor of the Manchester rioters, last night, produced great excitement, and the agitation is increasing to-day. A bitter anti-Fenian feeling prevails among the larger portion of the population, and serious riots are feared.

SOUTHERN NEWS.

NEW YORK, Nov. 22. A Louisville special says: Great distress is apprehended here from the recent closing of several of the largest manufactories on account of the scarcity of coal. The Louisville Rolling Mill has reserved a sufficient quantity of coal to protect their late employes until a further supply can be obtained.

A Knoxville special says a fire is raging in the mountain forests in the vicinity, filling the country with smoke and doing immense damage to property.

The Preston jewelry, valued at $10,000, which was recently taken from an ex rebel soldier who had exhumed it from the place where it had been buried, was to-day surrendered by the city authorities to Major John Preston.

Dr. Sears, the agent of the Peabody fund, is in this city seeking information regarding Southern schools.

WESTON'S PROGRESS.

TOLEDO, O., Nov. 22.—Weston, the pedestrian, arrived here at 2 o'clock this morning and will leave again at 2 o'clock this afternoon to continue his walk. He expects to commence his fourth attempt to walk his 100 miles between here and Bryan, Ohio.

Washington Evening Dispatches.

The *Times'* special says that the bill authorizing governmental instruction in military tactics in Colleges, will be introduced to Congress.

The notorious Baker, once a detective, was before the Judiciary Committee yesterday, under arrest.

Thad. Stevens told his friends who offered to assist him yesterday, that he could "go alone," and that he was not half so dead as the newspapers had reported.

Gov. Chamberlain and the members of Congress from Maine held a conference last evening on State affairs.

The Pay Department committee will not be able to report for a long time.

The *World's* special says the House committees will be announced Monday, without regard to parliamentary precedent, and solely on the ground of merit.

Gov. Holden telegraphs that North Carolina has voted to call a convention under the reconstruction act.

A bill was introduced by Mr. Ingersoll, yesterday, to repeal the law allowing the Secretary of the Treasury to contract the currency at the rate of $4,000,000 per month.

Gen. Grant's report estimates the expenses of the War Department for the next fiscal year at $70,000,000, and shows important intrenchments.

He states that Gen. Sherman's opinion is that peace with the Indians is fully established. His report will endorse all military commanders who are enforcing the reconstruction act.

NEW YORK, Nov. 22.—The *Tribune's* special states that efforts are making to press the passage of some bill to equalize the soldiers' bounties.

The House Committee on Frauds in the Pay Department will commence their investigations immediately.

Many Eastern members of Congress and strangers have returned home.

The Republican caucus has been postponed until next week.

Department clerks are endeavoring to have their salaries increased. Gen. Grant opposes it.

The *Herald's* special says that the general disposition of the members of Congress, is to defer action upon impeachment, until they have fully examined the testimony upon the subject.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the only entrance to his Office is **No. 21**, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX
boldly asserts (and it cannot be contradicted, except by Quacks, who will say or do anything, even perjure themselves, to impose upon patients) that he
Is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.

To avoid and escape imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines by the dead, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

A Library of Universal Information.
THE NEW
American Cyclopædia:
A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.
EDITED BY
GEORGE RIPLEY AND CHARLES A. DANA
AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.
In 16 large volumes, 8vo.
750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information,—in conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference."
Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

THE HOWE SEWING MACHINE,
699 BROADWAY, NEW YORK.
For Families & Manufacturers.

—o—

THE HOWE LOCK STITCH,
Were awarded the highest premium at the World's Fair in London, and six first premiums at the N. Y. State Fair of 1866, and

Are celebrated for doing the best work, using a much smaller needle for the same thread than any other machine, and by the introduction of the most approved machinery, we are now able to supply the very best machines in the world.

These machines are made at our new and spacious Factory at Bridgeport, Conn., under the immediate supervision of the President of the Company, ELIAS HOWE, Jr., the original inventor of the Sewing Machine.

They are adapted to all kinds of Family Sewing, and to the use of Seamstresses, Dress Makers, Tailors, Manufacturers of Shirts, Collars, Skirts, Cloaks, Mantillas, Clothing, Hats, Caps, Corsets, Boots, Shoes, Harness, Saddles, Linen Goods, Umbrellas, Parasols, etc. They work equally well upon silk, linen, woolen and cotton goods with silk, cotton or linen thread. They will seam, quilt, gather, hem, fell, cord, braid, bind, and perform every species of sewing, making a beautiful and perfect stitch, alike on both sides of the articles sewed.

The Stitch invented by Mr. HOWE, and made on this Machine, is the most popular and durable, and all Sewing Machines are subject to the principle invented by him.

500 MILES
OF THE
Union Pacific Railroad,
Running West from Omaha ACROSS THE CONTINENT,
ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad, to develop and protect its own interests, it gave the Companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—United States Bonds

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these bonds is paid by the United States Government, which also pays the company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien. The claims against the government since April of the current year amount to four and one-half times this interest.

2.—First Mortgage Bonds.

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the government, and *no more*, and *only as the road progresses*. The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3—The Land Grant.

The Union Pacific Railroad Company has a land grant or absolute donation from the government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1 50 per acre at the lowest valuation.

4.—The Capital Stock.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 500 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repair of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling-stock, to an amount that shall not be less than $8,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $90,000 per mile.

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $68,058	$62,205,012
186 miles, at $90,000	16,740,000
Add discount on bonds, surveys, &c.	1,500,000
Amount	$80,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

First Mortgage Bonds	29,328,000
Capital stock paid in on the work now done	5,078,250
Land Grant, 14,080,000 acres, at $1 50 per acre	21,120,000
Total	$84,854,250

The company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent, will be one of the wonders of railway transportation; and as it will have no competitor it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of their splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines, that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles, of comparatively low value, shortness of time decides the direction of freights and most of these cargoes will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a double track so necessary. California and Oregon must not only be supplied with means of transport for its passengers, mail, treasure and other freights, but the inhabitants of Dakotah, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining district, which is only awaiting this ready means of communication to receive a population that will develop its vast mineral and other resources, and which of itself would furnish ample business for a railway line.

EARNINGS FROM WAY BUSINESS.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 325 miles of the Union Pacific Railroad was in operation. The Superintendent's Report shows the following result:

Earnings.

Passengers, Freight, Telegraph and Mails	$722,755 54
Transportation of Contractors' Materials and Men	478,253 41
Total	$1,201,008 95

Expenses.

Fuel, Repairs, Officers, Conductors, Trains, &c.	$535,550 32
Net Earnings to balance	665,458 63
Total	$1,201,008 95

The net operating expenses on the commercial business for the quarter were $237,986 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$722,755 54
Expenses	237,986 50
Net Profit	$484,769 04

The amount of Bonds the Company can issue on 325 miles at $16,000 per mile, is $5,200,000. Interest in gold, three months, at 6 per cent., on this sum, is $78,000; add 40 per cent. premium, to correspond with currency earnings, is $109,200, showing that the net earnings for this quarter were more than *four times* the interest on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the safest investments. They pay

Six per Cent. in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at Six Per Cent. in Currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these Bonds, which are over FIFTEEN PER CENT. CHEAPER, and, at the current rate of premium on gold pay

Over Nine Per Cent. Interest,

Subscriptions will be received in Newport by NATIONAL EXCHANGE BANK, NATIONAL BANK OF NEWPORT, and in New York at the Company's Office, No. 20 Nassau street, and by CONTINENTAL NATIONAL BANK, No. 7 Nassau street. CLARK, DODGE & CO., Bankers, No. 51 Wall street. JOHN J. CISCO & SON, Bankers, No. 33 Wall street.

and by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

ACROSS THE SIERRA NEVADAS
THE
Central Pacific Railroad.

THE WESTERN HALF
OF THE
GREAT NATIONAL TRUNK LINE
Across the Continent,

Being constructed with the AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the world; as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the two Oceans.

Its Line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great *Mining Regions of the Far West*, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at hand for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimates. The figures for the quarter ending August 31 are as follows in Gold:

GROSS EARNINGS,	OPERATING EXPENSES,	NET EARNINGS,
$487,579 64	$86,543 47	$401,031 17

or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the nominal ratio of government transportation, and less twelve of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges. Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of 865 miles $28,502,000, or at the average rate of $33,000 per mile—not including an absolute grant of 10,000,000 acres of the Public lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, the GENERAL GOVERNMENT, IN EFFECT, INVITES THE COOPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty-Year Six Per Cent. Coupon Bonds,
Principal and Interest Payable in Gold Coin,

in New York city. They are in sums of $1,000 each with semi-annual gold coupons attached, and are selling, for the present at 95 per cent. and accrued interest from July 1st, 1867, in currency, at which rate they yield nearly

Nine Per Cent. upon the Investment.

These Bonds, authorized by act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent in all cases, the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, Stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guaranties of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most valuable and productive portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth. The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources and prospects of the Road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire-place into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a parcel in connection with the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are in the plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless Stove." Sole agent in Newport,
